

BLANK

BOX  
9th grade

1

# INSTRUCTIONS:

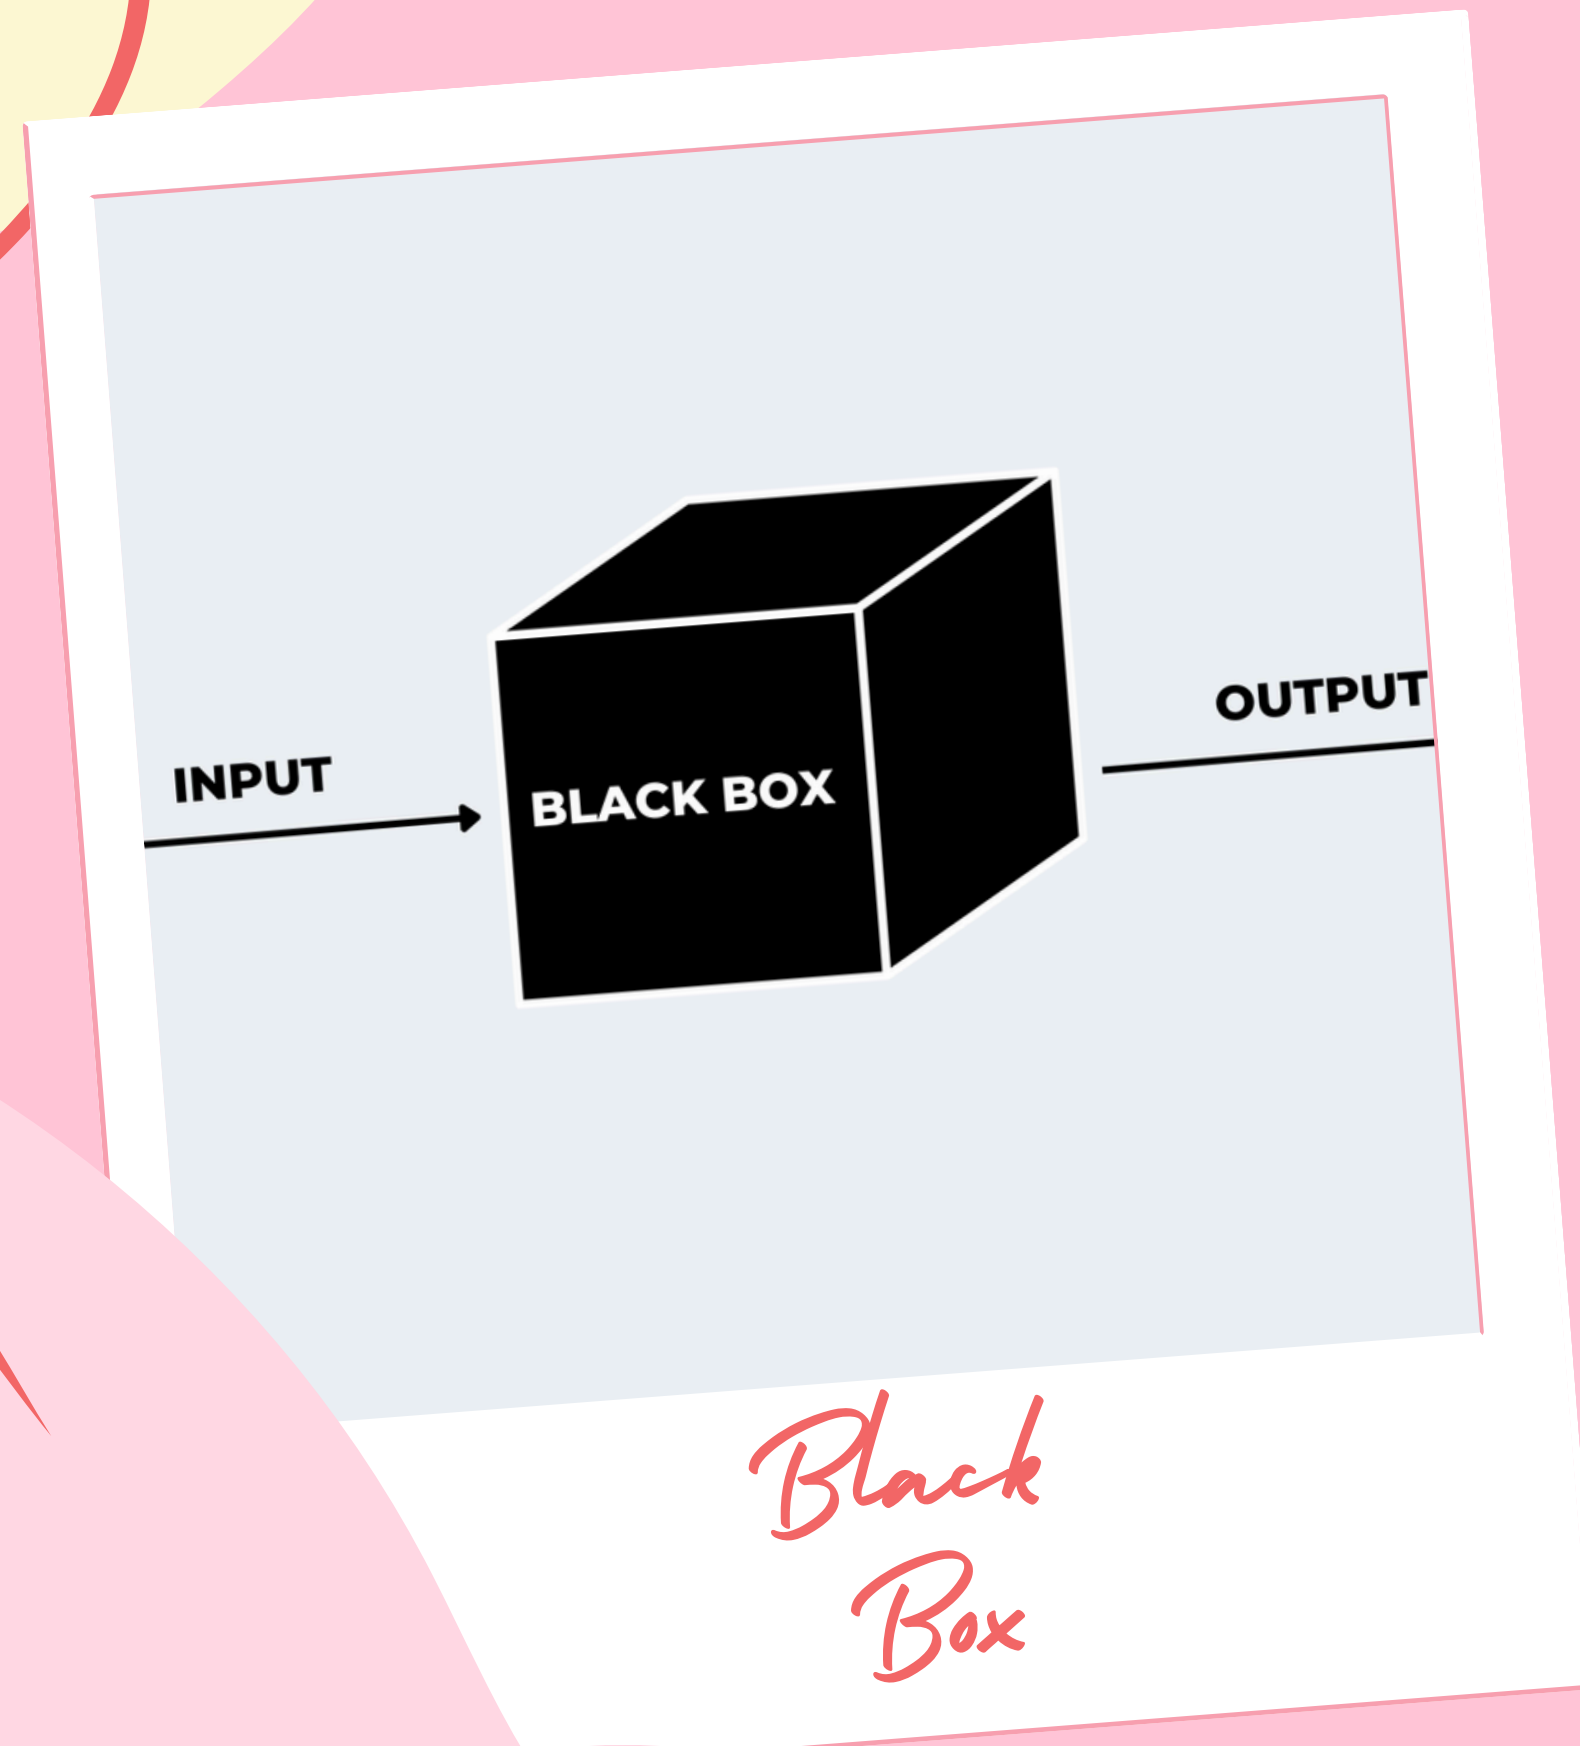

Using Canva, create a black box diagram to ask the user to enter three numbers and show the sum, the multiplication, average and the and the median

2

## What is the Black Box?

Blackbox is a minimalist window manager for UNIX-like systems, written completely from scratch by Brad Hughes under the C++ programming language.

STAR

Enter the first  
number, x

Enter the second  
number, y

Enter the third  
number, z

The sum is  $(x+y+z)$  ; The  
multiplication is  $(x*y*z)$ ;  
The average is  $(x+y+z/3)$ ;  
The median is  
 $(X; (Y)^2 ;Z)$

Please enter three numbers?

Enter number one:

x

Enter number two:

y

Enter number three:

z

The sum is  $(x+y+z)$

The multiplication is  $(x*y*z)$

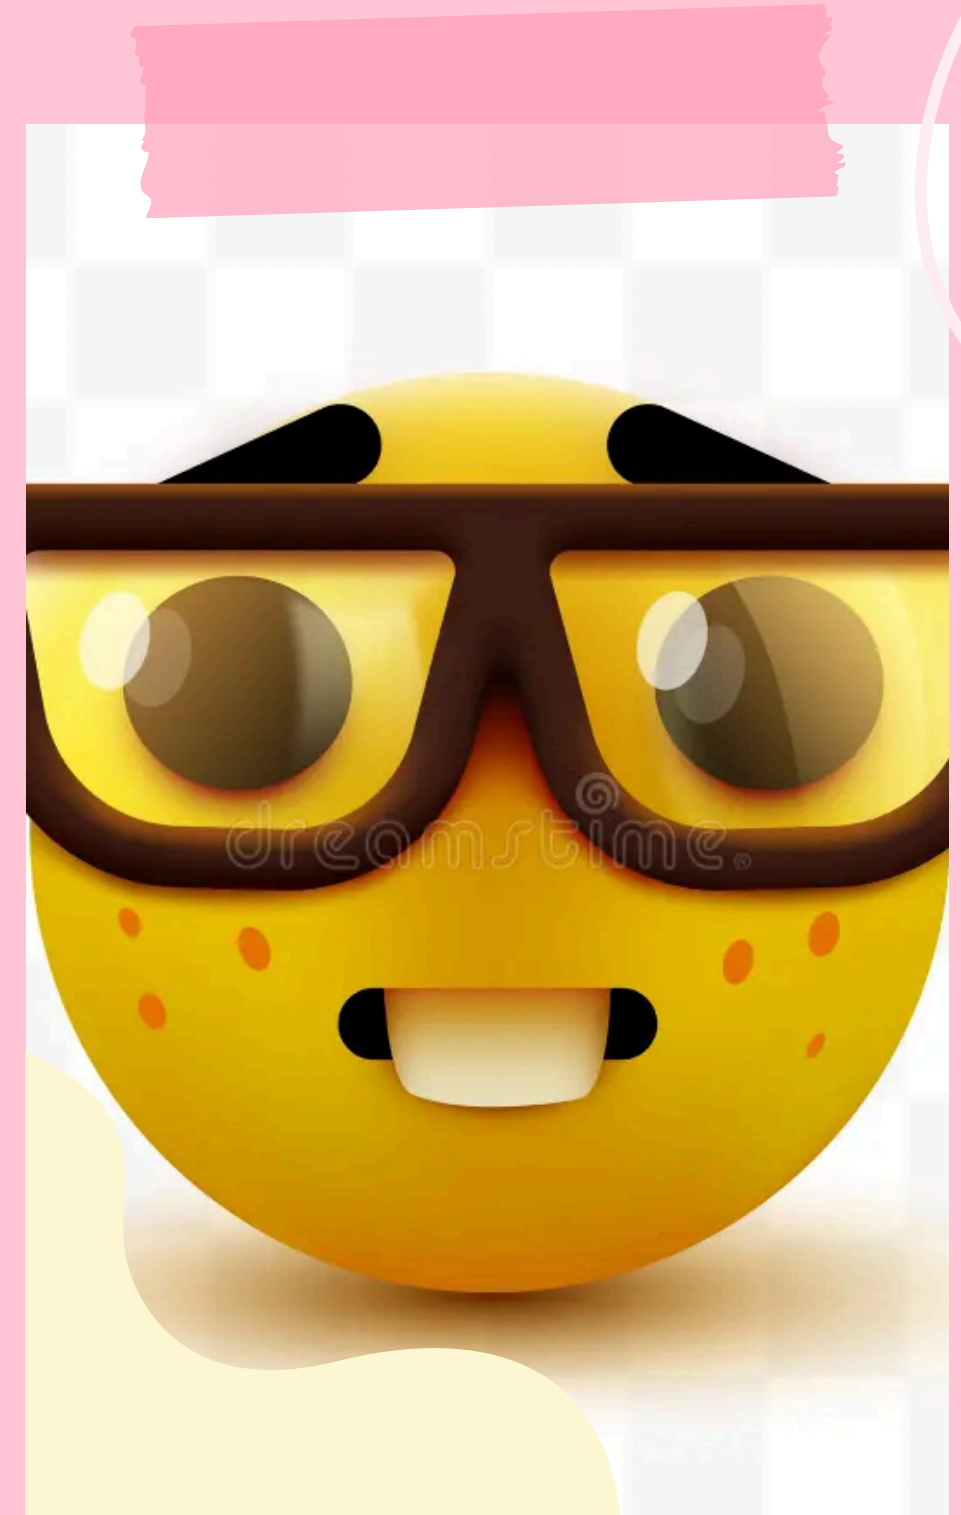

The average is  $\frac{x+y+z}{3}$

The median is  $(X; (Y)^2 ;Z)$

4

## utility

Allows you to run KDE and GNOME applications. Provides multiple virtual desktops or 100% configurable work areas. Includes a menu to launch applications. Includes a gallery of visual themes to customize the look.

5

## How was the black box created?

Black Box was a musical group formed in the late 1980s, in Italy, by producers Daniele Davoli, Mirko Limoni and Valerio Semplici. It was formed as one of the main Italo dance or Italo Disco projects. The producers also used other names, such as Starlight and Groove Groove Melody.

6

## What can BlackBox do?

BlackBox AI is an AI-powered coding assistant that lets you code 10x faster.

It allows you to convert any question into code and has features like extracting code from any video and code auto-completion.
